IN THE CLAIMS

(1)   Please add new claims 39 through claim 44 as follows:

1   39   The method of claim 1 further comprising the step of:

2   receiving a second request; and

3   loading a set of selected data for a tool object corresponding to a managed tool into

4   a WorldWideWeb ("Web") page for sending to a client in response to said second request.

1   40.   The method of claim 39 wherein said Web page has a portion operable for

2   user entry of one or more values for modifying a tool object attribute.

1   41.   The data processing system of claim 15 further comprising:

2   circuitry operable for receiving a second request; and

3   circuitry operable for loading a set of selected data for a tool object corresponding to

4   a managed tool into a WorldWideWeb ("Web") page for sending to a client in response to

5   said second request.

1   42.   The data processing system of claim 43 wherein said Web page has a portion

2   operable for user entry of one or more values for modifying a tool object attribute.

1   43.   The program product of claim 27 further comprising instructions for

2   performing the steps of:

3   receiving a second request; and

4   loading a set of selected data for a tool object corresponding to a managed tool into

5   a WorldWideWeb ("Web") page for sending to a client in response to said second request.

1

2

44.   The program product of claim 41 wherein said Web page has a portion operable for user entry of one or more values for modifying a tool object attribute.

Respectfully submitted,

WINSTEAD SECHREST & MINICK P.C.
